Amine Malghigh

Programmer at Freelance
Marrakesh-Safi, Morocco

Summary

Hello, my name is Mohammed Amine and I am currently a I am
preparing for the baccalaureate exam. I am passionate about
technology and web development. I enjoy experimenting with
new technologies and programming languages. In my free time,
I like to build websites and web applications and I am constantly
seeking to improve my skills and knowledge in this area. Additionally,
I have a keen interest in digging deeper into the intricacies of
programming. I believe that having diverse interests helps to
broaden my perspective and allows me to approach problem-solving
in new and I believe in approaching problem-solving in innovative
ways, and I am particularly interested in enjoy experimenting with
new design techniques and tools, and creating visually appealing
and user-friendly websites. I believe in approaching design problem-
solving in innovative ways. My goal is to use my web design skills
to work in a respectable job and create visually appealing and user-
friendly websites for clients and companies. I want to work with
a team of experienced professionals and continue to learn and
improve my skills in the field. I am also interested in expanding my
skillset by exploring other areas of web development such as front-
end development, user experience design, and mobile development.
In the long run, I hope to become a respected professional in the
industry and contribute to the growth and success of the company I
work for, in the future.
